Organic Accreditation : No accreditation

Sustainable Content : **Yes** Sustainable Content Percentage : **95.0%**  
Sustainable Accreditation : No

Recycled Content : **Yes** Recycled Content Percentage : **5.0%**  
Post Consumer Content : **Yes** Post Consumer Percentage : **5.0%**

## Manufacturing Overview - Meets LifeCycle Standard

Animal Testing : **No**

Resource Consumption : **Good**

Resource Consumption Our factories are very eco conscious and we do not over consume any other resources besides what we grow. Hemp does not need to be watered much and the rainfall takes care of that for us. We use low impact -fiber reactive dyes and plant dyes. We are good to our land and

Energy Consumption :

1). Production : **Good**

Production Hemp requires little energy to grow compared to cotton  
Discussion :

2). Transportation : **Average**

Transportation ECOLUTION® maintains a very large stock of products in our Santa Cruz, California warehouse.  
Discussion :

Pollution :

1). Air : **Good**

Air Pollution Hemp is the fastest growing agricultural crop and is gentle on the land,  
Discussion : requiring no chemicals in its cultivation.

2). Water : **Good**

Water Pollution We mainly rely on naturally occurring rainfall in our fields.

Discussion :

Packaging : **Good**

Packaging We re-use and recycle our boxes.

Discussion :

Company Evaluation : **Yes**

Company ECOLUTION® products are manufactured in Romania. Our production is

Evaluation politically, socially, economically, and environmentally responsible. We

Discussion : firmly believe in fair trade and ensure that employees have non-toxic, safe, well-heated, and well-lit working conditions -- and, of course, we do not employ children. Furthermore, our employees have opportunity for advancement, as their work is appreciated and rewarded.

## Usage Overview - Does Not Meet LifeCycle Standard

*How does the usage of the product impact **Reduction** or **Elimination** ? If there is an impact, is it Low, Medium or High impact*

Material Consumption : **Yes**

Impact : **Medium**

Description : Durability is an essential factor in determining whether a product is eco or not, because the environmental impact is spread over the lifetime of that product. Our products are built to last - even maturing with age. like

Trash Production : **No**

Impact : **Not applicable**

Description : NA

Toxic Content : **No**

Impact : **Not applicable**

Description : NA

Energy Consumption : **No**

Impact : **Not applicable**

Description : NA

## Disposal Overview - Meets LifeCycle Standard

Bio-degradable : **Yes**

Bio-degradable Percentage : **95.0%**

Accreditation : No accreditation

Recyclable : **No**

Recyclable Percentage : **0.0%**

Accreditation : No accreditation
