Usage Overview - Meets LifeCycle Standard

*How does the usage of the product impact **Reduction** or **Elimination** ? If there is an impact, is it Low, Medium or High impact*

Material Consumption : **No** Impact : **Not applicable**
Description : Our packaging is completely reusable and the product leaves no residue so people do reuse the bottles for other things

Trash Production : **Yes** Impact : **Medium**
Description : No more plastic in our landfills. Aluminum GETS recycled because it is a valuable commodity

Toxic Content : **Yes** Impact : **Medium**
Description : The product is completely biodegradable, has no toxic chemicals and is largely organic. Most skin and hair care products (even many organics) contain ingredients that are known or suspected carcinogens (sulfates, parabens, formaldehyde, synthetic fragrances and colorants and more.) Even when a product boasts "plant-based," there is potential for pesticide and herbicide residues as well as contamination from chemical fertilizers. Compared to traditional soaps, shampoos and lotions, our products reduce the amount of toxic chemicals on your skin and in waste water.

Energy Consumption : **No** Impact : **Not applicable**
Description : NA

Disposal Overview - Meets LifeCycle Standard

Bio-degradable : **Yes** Bio-degradable Percentage : **90.0%**
Accreditation : No accreditation

Recyclable : **Yes** Recyclable Percentage : **10.0%**
Accreditation : No accreditation
